

Morrison is committed to ensuring your health & safety and that of your family when we do work in your home. However when repair work is being done there are particular risks to be considered, planned for and managed...

**"We need your help"** ...to enable us to work safely, please read the information and follow the steps that are given on the reverse of this card.

**MORRISON** 

**"your safety"**

### **Your safety is our priority, so please remember:**

Talk to us regarding any concerns that you may have in connection to any work we are undertaking in your home & to help protect yours self and your family...

- *Ask for, take note & follow any safety instructions given.*
- *Supervise children & keep them away from the work area.*
- *Do not interfere with or touch Morrison tools or materials.*
- *Ask our operatives to move items that may be in your way.*
- *Do not use Morrison steps or ladders.*
- *Do not climb onto Morrison scaffolding or access platforms.*
- *Where electricity has been switched off please don't turn it back on.*
- *Keep your windows open to ventilate paint and fumes.*
